

23<sup>rd</sup> September 2021

Dear Parents and Students,

**Information on the WG Vaccination Programme**

At the request of the Welsh Government, I write to share with you information prepared by Public Health Wales about the offer of vaccination to 12-15 year olds. You will find accompanying this brief letter two documents: one that tells you about the vaccination programme and another that offers answers to frequently asked questions.

Anyone wishing to find out additional information may find it via the following links:

[Patient information - Public Health Wales](#)

[COVID-19 vaccination A guide for children and young people - Public Health Wales](#)

We do not yet know if our school will be used as a centre for vaccinations. As stated in the information provided, clear agreement (consent) from parents will be necessary before any vaccination can be administered.

Best wishes,

**Headteacher: Eugene Scourfield M.A. (Oxon.)**

Newton Avenue, Neath Port Talbot, SA12 6EY
